About "Tesseract Abyss 2"

The Adventure Mode of "Tesseract Abyss" is a mode in which players aim to defeat Gargantua on the deepest level (101F) in the four-dimensional space called the "Tesseract", implemented back in December 2019. "Tesseract Abyss 2" is a further development of this mode.

With this update, a new large enemy called "Galossus" makes its first appearance ever. In addition, the Tank-Elite, which unleashes powerful attacks and the Kunoichi-Veteran, which confuses players with its tricky movements, are the other two enemy types coming with the update.

With these new elements added to the game, new battles and new strategies will be born.

Furthermore, new background music and new voice acting lines have been added, graphics have been improved, and enemy placement has been completely redesigned.

About the ongoing events

We will be holding a collaboration event with UNI Akatsuki, a beautiful vampire YouTuber and Chairman of UNI Create Co. In this event, the collaboration weapons of "Akatsuki UNI" and her pet bat "Muni" will be available for a limited time.

The beautiful YouTuber UNI Akatsuki is a thousand-year-old vampire. She lives in Bunkyo-ku, Tokyo. Riding on the wave of Internet video distribution popularity, she broke her thousand-year silence and appeared on the stage of YouTube. She takes pride in having a reputation for her videos that mix history and knowledge based on her many experiences as a vampire (or life experience in human terms).

She is also the chairman of UNI Create, an individual vampire office that bears his name.
