

Announcement about the postponement of PSVR version of “SWORDS of GARGANTUA”

VR planning and development company Thirdverse, Inc. is terribly sorry to announce that the release of the PSVR version of “SWORDS of GARGANTUA” had to be rescheduled to summer 2020.

We sincerely apologize for the inconvenience this may cause to those who have been looking forward to this title.

Due to the global outbreak of a new type of coronavirus infection (COVID-19), the company has recently announced that it will postpone the launch of the product from the end of April to May, due to the inevitable delay in the final development process.

After careful consideration, we have decided to reschedule the release of the game in order to further improve the quality of the productions and the impact of the prolonged infection. We sincerely apologize to those who have been looking forward to the release of this game. As soon as the release date is confirmed, it will be announced on the official “SWORDS of GARGANTUA” website and official social media accounts.

Sword of Gargantua is a VR sword-fighting action game with a realistic sword-fighting theme, where players fight against the giant Gargantua and his army in a giant space built in VR. You can play online and work together with up to four players to defeat the giant enemies. There are many types of weapons available, and more than 100 stages for both beginners and advanced VR players to enjoy.

Also, the new "Adventure Mode Tesseract Abyss" was added in December 2019.

This new mode is set in the four-dimensional space called "Tesseract" and your mission is to defeat the giant creature that is lurking on the deepest floor, the Gargantua.

You can play by yourself or multiplayer (up to 4) to conquer the Tesseract by strengthening your equipment and abilities with the various weapons and coins you gain each time you challenge this dungeon.
