SWORDS of GARGANTUA is a VR sword-action game you can experience in single-player mode or online co-op with up to 3 other players. Traverse through the Tesseract Abyss floors with the aim of taking down the giant Gargantua in its deepest layer, Floor 101. Make use of various weapons and abilities which you earn with every attempt, and take on difficult battles along your journey. A wide variety of weapons are available, allowing you to pursue your own virtual reality action (one and two-handed swords, axes, maces, boomerangs, shields, etc.). While playing, you can use voice chat to communicate with your fellow warriors while taking on the enemies in Tesseract Abyss.

Key Features:

- Hyper-Realistic VR Swordsmanship: Swing, stab, crush and parry. Wield over 30 discoverable weapons and fight your way through 101 floors of enemies hell bent on stopping you from reaching the colossal end-boss, Gargantua.
- Rogue-lite Action: Each play through gives different floor advancement choices along the way; play it safe, but it'll take more battles to reach the end, or skip to a deeper level and be cursed with major disadvantages and debuffs while fighting tougher enemies.
- Character Progression: Keep all the weapons, items, coins and stat upgrades collected through each play permanently. Take excess weapons and combine them to make stronger versions to aid in progressively difficult battles.
- Co-op Multiplayer: Play with up to three other adventurers. Call the shots with native voice chat and defeat the mighty Gargantua.
